

KEENELAND
CONCOURS
d'ELEGANCE

Photographers' Sampler

By Doug Steele

The automobile and photography are both products of a simpler era when men thought of time relative to the speed of a horse or a steam locomotive. Perhaps that helps us understand why they work so well together — they have grown up together as old friends.

The Keeneland Concours d'Elegance is fortunate to have a great cadre of volunteer photographers selected to bring their camera equipment along with their remarkable talents and enthusiasm to our show every year. It is long overdue to thank these remarkable artists and to show some of their beautiful images.

If these images pique your interest to see more, we invite you to visit our online image galleries. Enjoy photos from several years of concours by these and other outstanding photographers. Images are available for purchase in a variety of sizes and media at www.keenelandconcours.smugmug.com.

Dr. Tim Bricker was an inspiration and a friend. He shared his love of cars from the same heart that showed great compassion and love to so many children at Kentucky Children's Hospital.
